If you've ever come home with a car load of home wares and furniture that looked great in the store but did nothing for your living spaces, an Interior Design Discovery Tour might be the best spent half day of your year! There is a knack to knowing not only what looks good on the shelf, but what will complement and update your interior. **A team of 4 Perth Interiors Experts are bringing Perth's Best Interior Style Secrets to you, with an Interior Design Walking Tour around Perth's best stores.**

If you struggle to find a bargain or you need help to pulling a look together, a tour can teach you the tricks of the trade, save costly mistakes, can also help you find the best of the latest trends and show you how to integrate them in your home. *Tours include a show bag with gift vouchers, giveaways, info sheets, offers and tips of the trade, a one on one consultation, and morning/afternoon tea.*
